If it is not Refundable

Your ticket is not Refundable

If refundable

Your ticket is Refundable

The amount xxx will be transferred to the way of payment in 3-4 days

Reviewer 2.

COMMENTS:-

You should make detail plane about the trains
from where to where the train is moving, how much time it
should take to go.

On the web application we should show no. of tickets
available, how many waiting list

→ In Ticket Cancellation we do not mention refundable
we should mention it as
it can't be cancelled

→ when your ticket is cancelled the refund amount
should be updated to your bank account. that full details
are missing in Ticket refund.

They you have not mention the title layout design
Particularly.
